USP is very pleased to announce that the Spanish USP–NF Online launched in June 2020.

The Spanish *USP–NF* Online provides you access to the content that you need within an online platform that helps streamline your workflows.

Below are some of the benefits of the new platform:

-
- Comprehensive search tool that will help you easily find what you need.
 - Simplified navigation with annotations that explain the content of different sections, thereby simplifying access for new or infrequent users.
 - The ability to save personalized bookmarks and easily return to any page through the "Viewing Activity" function.
 - The ability to receive notifications of upcoming changes to specific documents, so you always know when key documents and tests are updated.
 - The ability to search across multiple editions of the Spanish USP—NF Online.

The *USP–NF* is available as a Spanish Edition for Spanish-speaking pharmaceutical scientists and professionals. USP has used the most rigorous translation and quality control to develop the *USP–NF* Spanish Edition. The translation process was guided and directed by a special advisory group of volunteer scientific experts from many Spanish-speaking countries. The translation was thoroughly checked by bilingual (English/Spanish) USP staff scientists. *USP–NF* standards are [enforceable by the U.S. Food and Drug Administration](#) for medicines manufactured and marketed in the United States.

The Translation Management System for the Spanish Edition of the United States Pharmacopeia—National Formulary (*USP–NF*) has been [certified to ISO 17100:2015](#) to provide the translation of *USP–NF* into Spanish as of September 7, 2016. This certification is applicable starting with the Second Supplement to 39th edition of the *USP* and the 34th edition of the *NF*. With this certification USP reinforces its commitment to *USP–NF* users with products in line with best industry practices.
