
General Chapter <621> Chromatography—System Suitability

Type of Posting: Revision Bulletin: POSTPONEMENT

Posting Date: 20–Feb–2006

Official Date: Indefinitely Postponed

Expert Committee: General Chapters

Transferred to Accelerated Revision History section: Date General Chapter becomes Published

In accordance with the Rules and Procedures of the 2005–2010 Council of Experts, USP has postponed indefinitely the implementation requirement of text pertaining to System suitability, Detection sensitivity requirements published in the *USP 29–NF 24*, which becomes official on June 1, 2006. On the basis of comments received, the General Chapter Expert Committee has decided that additional time is necessary to review the impact of this proposal, specifically on older methods that were not developed to meet this requirement. The postponement will give the Expert Committee time to define a better strategy to implement this requirement.

Should you have any questions, please contact Horacio Pappa, Ph.D., (301-816-8319 or hp@usp.org).
