
Packaging Chapters Published in PF 43(3) [May–Jun. 2017] to be Cancelled and Redeveloped

Type of Posting: General Announcement

Posting Date: 23–Feb–2018*

The following packaging related general chapters were published for comment in *Pharmacoepial Forum* 43(3) [May–Jun. 2017].

- <660> Containers —Glass
- <1660> Evaluation of the Inner Surface Durability of Glass Containers
- <381> Elastomeric Closure for Injections
- <382> Elastomeric Closure Functionality in Injectable Pharmaceutical Packaging/Delivery Systems
- <1381> Elastomeric Evaluation of Elastomeric Components Used in Pharmaceutical Packaging/Delivery Systems
- <1382> Assessment of Elastomeric Closure Functionality in Injectable Pharmaceutical Packaging/Delivery

Based on comments received these revisions have been cancelled pending comprehensive and strategic redevelopment. They will appear on the Cancellations list for the *Second Supplement to USP 41–NF 36*, which will be posted on April 27, 2018 at <http://www.uspnf.com/official-text/proposal-statuscommentary>.

It is anticipated that USP will publish revised proposals for these General Chapters in a future issue of the *Pharmacoepial Forum*.

Should you have any questions or concerns, please contact Desmond Hunt, Principal Scientific Liaison, Ph.D. (301-816-8341 or dgh@usp.org).

* An earlier version of this notice incorrectly identified the *Pharmacoepial Forum* version in which these chapters appeared as 44(3).
