DESCRIPTION AND SOLUBILITY

Description and Relative Solubility of USP and NF Articles

Add the following:

• **Cetirizine Hydrochloride:** White to almost white powder. Freely soluble in water; practically insoluble in acetone and in methylene chloride. • (RB 1-May-2010)

Add the following:

• **Irinotecan Hydrochloride:** Pale yellow to yellow crystalline powder. Sparingly soluble in water and in alcohol; slightly soluble in most organic solvents. • (RB 1-May-2010)
