Errata

Access USP–NF Errata

View Errata Postings for *USP–NF* Spanish Edition (in Spanish).

Errata are considered to be text erroneously published in the *USP–NF* that does not accurately reflect the intended requirements as approved by the Council of Experts. Errata are posted at the end of each month.

For more information on errata official dates, please view the Compendial Notice that posted on February 12, 2021.

Errata are corrected in the *USP-NF Online* publication on the same date as the errata table is published. Revision symbols will designate changes: ?new text? (ERR 1–Jul–2018).

Errata are posted in the interactive table linked above. Entries are searchable by title, and each column heading can be sorted. In addition, table entries can be downloaded in CSV and PDF format and printed.

- **Errata Official Date** refers to the date the Erratum becomes official.
- **Source Publication** is the latest official publication where the Erratum appears. Beginning January 28, 2022, this column will be populated with "USPNF Online" instead of a specific publication name.
- **Page Number** indicates where the item is found within the source print publication.
- **Errata Post Date** specifies when the Erratum first appeared in the online errata table.
- The columns **Target Errata Print Publication** and **Target Online Fix Publication** will be populated with NA as of December 28, 2018. These columns are no longer relevant as the *USP-NF Online* content is corrected on the same date as the errata posts.

For more information on the errata process, see USP Guideline on Use of Accelerated Processes for Revisions to *USP–NFand FCC*. USP staff is

available to respond to questions regarding the accuracy of a particular requirement by phone at 1-800-822-USPC or email at execsec@usp.org.
