Second Supplement to USP 39–NF 34 Online: Greek Symbols

Type of Posting: Publication Correction

Posting Date: 24–June–2016

USP recently discovered a technical error that is causing a data inconsistency with the Greek symbols between the *USP–NF* online and the *USP–NF* print products. In some instances the Greek symbols are displaying as upper case instead of lower case. Attached is a spreadsheet outlining which Greek symbols are affected and which General Chapters are impacted.

The discrepancy first appeared in the *USP 39–NF 34* online through the *USP 39–NF 34 Second Supplement* online. The issue will be corrected in the *USP 40–NF 35* online product.

USP apologizes for any inconvenience this may have caused.
