

## USP–NF Online: Proposed Changes to Title and Format- Update

**Type of Posting:** General Announcement

**Posting Date:** 25-Jan-2019

USP will be proposing changes to the format of the *USP–NF* in *PF* 45(3) [May-June], reflecting stakeholder input received through a public survey, Stakeholder Forums, and Project Teams. These changes align with the transition to a fully electronic publishing model for USP publications, including the *USP–NF*, and solidifying one source for official text. The changes will also allow USP to target resources toward ongoing enhancements to the *USP–NF* Online.

Beginning in 2020, the *USP–NF* will transition to publishing three online-only publication updates per year. USP plans to continue publishing accelerated revisions and errata on a monthly basis. There will be no change to publishing dates, official dates associated with scheduled publications, or the six-month implementation period.

Each year a non-official volume of associated revisions and additions to the *USP–NF* will be available for purchase. This volume is intended to serve as a historical reference document and is not considered official text.

Stakeholder feedback has also resulted in alterations to the proposed *USP–NF* title change, designed to align with the electronic format. The proposed publication title format is as follows:

*USP–NF* 2021 Issue 1

*USP–NF* 2021 Issue 2

*USP–NF* 2021 Issue 3

USP is postponing this aspect of the proposal and will publish a revised proposal in *PF* 46(1).
