

Missing Page Numbers in Auxiliary Information from Eight Chapters

Type of Posting: Publication Correction

Posting Date: 10-Sep-2008

Page numbers were erroneously omitted in the Auxiliary information section from eight new or revised Chapters that appeared in the First Supplement to *USP 31–NF 26* electronic products. The page numbers indicate on which page the chapter appears in the printed version of the First Supplement. This affected only the chapters, not monographs. The page numbers are posted below for users of the online and CD. This same data was omitted from the Second Supplement to *USP 31–NF 26* electronic products.

The following list contains the page number where the chapters affected were printed in the First Supplement to *USP 31–NF 26* electronic products:

- Chapter 11, USP Reference Standards, page 3572
- Chapter 55, Biological Indicators-Resistance Performance Tests, page 3573
- Chapter 130, Protein A Quality Attributes, page 3576
- Chapter 381, Elastomeric Closures for Injections, page 3581
- Chapter 503, Acetic Acid in Peptides, page 3584
- Chapter 671, Containers-Performance Testing, page 3585
- Chapter 1058, Analytical Instrument Qualification, page 3587
- Chapter 1087, Apparent Intrinsic Dissolution-Dissolution Testing Procedures for Rotating Disk and Stationary Disk, page 3591
