

Cumulative List of USP–NF and FCC Revisions Now Available

Type of Posting: General Announcement

Posting Date: 29–Jul–2016

Revised Date: 01–Mar–2017

USP has developed a Cumulative List of *USP–NF* Revisions to assist users in tracking revisions to *USP–NF* content. This list was first posted in December 2015 and includes information on the status of all proposed revisions which have been in progress since July 2015; including information on *In-Process Revisions*, *Revision Bulletins*, and *Interim Revision Announcements*. Recently, the list was also expanded to include information on *Errata* and redesigned monographs.

In the future, USP will update the [2015–2020 Cumulative List of USP–NF Revisions](#) each month to include the latest information on Accelerated and In-Process Revisions.

The complete *2015–2020 Cumulative List of USP–NF Revisions* can be found on the [Proposal Status/Commentary webpage](#). In addition, abstracts of the list for each Expert Committee are posted in the [Expert Committee Work Plans](#).

A similar list has been created for the *FCC*. The [2015–2020 Cumulative List of FCC Revisions](#) is posted on the [FCC Proposal Status/Commentary webpage](#). The *Cumulative List of FCC Revisions* will be updated twice a year coinciding with the publication of the Approvals, Deferrals, and Cancellation lists for each *FCC* publication.

Should you have any questions, please contact Elizabeth Bladen, Supervisor, Executive Secretariat Administration (301-816-8383, edb@usp.org).
