[New USP-NF Online, USP 41-NF 36 and Supplements: Cross-reference to Chromatography <621>, Thin-Layer Chromatography](#)

**Type of Posting:** Publication Correction

**Posting Date:** 10–Aug–2018

USP recently discovered a technical error that is causing hyperlinks to *Chromatography ?621?*, *Thin-Layer Chromatography* to incorrectly direct users to the USP monograph for Quinine Sulfate. This affects *USP 41–NF 36* and both the *First Supplement* to *USP 41–NF 36* and *Second Supplement* to *USP 41–NF 36* in the new *USP-NF Online*. A list of all files containing the inaccurate link is attached [here](#).

The links will be corrected in *USP 42-NF 37*. The links in the legacy *USP-NF Online* platform are correct. USP apologizes for any inconvenience this may have caused.

Should you have any questions, please contact Caroline Martin, Senior Director, Publications (301-816-8521 or [cmw@usp.org](mailto:cmw@usp.org)).
