
Publication Announcement: Integration of Accelerated Revisions into USP–NF Online

Type of Posting: Publication Announcement

Posting Date: 18–Jun–2018

In an effort to provide an improved user experience, Accelerated Revisions such as Errata, Revision Bulletins, Interim Revision Announcements, and Harmonization will now be integrated directly into the *USP–NF Online* on a monthly basis. The inclusion of Accelerated Revisions on a monthly basis allows users to obtain the latest updates to official content in a timely manner and within one source instead of having to visit multiple sites.

As a result, the new *USP–NF Online* may not precisely match what is presented in the print or legacy online platform of *USP 41–NF 36* or the *First Supplement* to *USP 41–NF 36* since these Accelerated Revisions have been incorporated into the content found in the new *USP–NF Online* platform. Publication schedules that indicate when Accelerated Revisions are incorporated into the new *USP–NF Online* have been updated on www.uspnf.com to reflect these changes.

Users should always consult the new *USP–NF Online* for the most up-to-date revisions.

Please contact uspnf-info@usp.org for any questions and visit the [Frequently Asked Questions \(FAQs\)](#).
