Monographs Affected by Revision to <561> Articles of Botanical Origin

Type of Posting: Notice of Intent to Revise
Posting Date: 05–Oct–2018
Targeted Official Date: 01–May–2019
Expert Committee: Various

In accordance with section 7.05(c) of the 2010–2015 Rules and Procedures of the Council of Experts, this is to provide notice that USP and its Expert Committees, as applicable, intend to revise multiple monographs in response to the revision of General Chapter <561> *Articles of Botanical Origin.*

A retrospective review was conducted on cross references to General Chapter <561>, and a need was identified to update the subsection title from *General Method for Pesticide Residue Analysis* to *Pesticide Residue Analysis* in a series of Pesticides monographs. The updates are incorporated in the *USP* 42–*NF* 37 publication, official as of May 1, 2019. A list of the monographs that will be modified can be found here.

All modifications will become official on May 1, 2019, to coincide with the official date of revised General Chapter <561>.

Please also see the Compendial Notice: New Revision Markup for Reference Changes in *USP–NF* for details on the revision markup used to identify the reference updates.

Interested stakeholders are encouraged to alert USP staff to any impact they may recognize related to the update of those monographs.

Should you have any questions or comments, please contact Maria Monagas, Scientific Liaison (301-230-7422 or mjm@usp.org, or the affected monograph's liaisons.
