
[PF Online: Changes to Briefings](#)

Type of Posting: Publication Announcement

Posting Date: 02-Jan-2020

Starting with *Pharmacopeial Forum* 46(1), USP will no longer use page numbers in PF briefings when referencing official *USP-NF* documents. Briefings will now include the official date and DocID of the compendial version the PF proposal is based upon. This change is intended to align with the transition of USP-NF to an online-only publication as of *USP 43–NF 38*.
