
[USP–NF Online: Official Status Correction to Manganese Sulfate Injection](#)

Type of Posting: Publication Announcement

Posting Date: 27-Mar-2020

USP recently discovered that the currently official version of the Manganese Sulfate Injection monograph displayed an incorrect official status in the USP-NF Online.

The Manganese Sulfate Injection monograph was proposed for omission, but USP issued a [Revision Bulletin](#) to postpone the omission indefinitely, official August 1, 2019. Despite the issuance of this Revision Bulletin to keep the monograph official, the currently official version of the Manganese Sulfate Injection monograph was displayed with an official status of “Older Version,” in error.

The monograph now appears correctly with an official status of “Currently Official” along with its associated DocID: GUID-5191DADB-384D-4AE7-BB40-DD48273667D3_5_en-US

USP apologizes for any inconvenience this may have caused.

Should you have any questions, please contact Jane Li, Associate Scientific Liaison, Science—Chemical Medicines Monographs 3 (301-230-6345 or jane.li@usp.org).
