

Acetaminophen Extended-Release Tablets

Type of Posting	Revision Bulletin
Posting Date	17-Nov-2023
Official Date	1-Dec-2023
Expert Committee	Small Molecules 2

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 2 Expert Committee has revised the Acetaminophen Extended-Release Tablets monograph. The purpose of this revision is to add *Dissolution Test 4* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s).

- *Dissolution Test 4* was validated using the Zorbax SB C8 brand of column with L7 packing. The typical retention time for acetaminophen is about 1.5 min.

The Acetaminophen Extended-Release Tablets Revision Bulletin supersedes the currently official monograph.
