In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 5 Expert Committee has revised the Albuterol Inhalation Solution monograph. The purpose of this revision is to change its official date from November 1, 2023, to May 1, 2025.

Comments were received requesting additional extended implementation time for the marketed Albuterol Inhalation Solution products' nomenclature to be revised from "Albuterol Sulfate Inhalation Solution." The additional 18-month implementation period is provided to facilitate adoption of the monograph and changing the name of the marketed products to "Albuterol Inhalation Solution."

The Albuterol Inhalation Solution Revision Bulletin supersedes the monograph becoming official on Nov 1, 2023.
