

## Alprazolam Tablets

<b>Type of Posting</b>	Revision Bulletin
<b>Posting Date</b>	29-Oct-2021
<b>Official Date</b>	1-Nov-2021
<b>Expert Committee</b>	Small Molecules 4

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 4 Expert Committee has revised the Alprazolam Tablets monograph. The test for *Organic impurities* in the monograph has been [postponed](#) based on the comments received. The purpose for the revision is to add clarity by removing the postponed content from the monograph so that only the official content is contained within the version marked as “Currently Official” in *USP-NF* Online as the postponed content will not be reinstated. As a result of removing the postponed *Organic impurities* test, a note was added to the *Assay* to include the relative retention times for alprazolam and the related impurities in the *System suitability solution*.

The Alprazolam Tablets Revision Bulletin supersedes the currently official monograph.
