| Expert Committee | Biologics Monographs 2 - Proteins |

In accordance with the Rules and Procedures of the Council of Experts, the Biologics Monographs 2 - Proteins Expert Committee has revised the Antithrombin III Human monograph. The purpose of this revision is to provide additional flexibility to manufacturers by adding the word “preferably” to the *Packaging and Storage* section that currently prescribes a specific type of glass. Please see the [General Announcement](#) and [Notice of Intent to Revise](#) for more information.

The Antithrombin III Human Revision Bulletin supersedes the currently official monograph.

Should you have any questions, please contact Rebecca Potts, Senior Scientist II (301-816-8567 or rcp@usp.org).
