

Aripiprazole Tablets

Type of Posting	Revision Bulletin
Posting Date	25-Feb-2022
Official Date	1-Mar-2022
Expert Committee	Small Molecules 4

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 4 Expert Committee has revised the Aripiprazole Tablets monograph. The purpose of this revision is to add *Dissolution Test 3* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s).

- *Dissolution Test 3* was validated using the Kromasil C8 brand of column with L7 packing. The typical retention time for aripiprazole is about 4.1 min.

The Aripiprazole Tablets Revision Bulletin supersedes the currently official monograph.
