

Baclofen Tablets

Type of Posting	Revision Bulletin
Posting Date	28-Mar-2025
Official Date	1-Apr-2025
Expert Committee	Small Molecules 3

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 3 Expert Committee has revised the Baclofen Tablets monograph. The purpose of this revision is to add *Dissolution Test 2* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s). *Labeling* information has been incorporated to support the inclusion of *Dissolution Test 2*. Existing references to reagents and reagent names have been updated for consistency with official reagent entry names.

- *Dissolution Test 2* was validated using the Zodiac C18 brand of column with L1 packing. The typical retention time for baclofen is about 6.7 min.

The Baclofen Tablets Revision Bulletin supersedes the currently official monograph.
