

Benazepril Hydrochloride and Hydrochlorothiazide Tablets

Type of Posting	Revision Bulletin
Posting Date	30-Apr-2021
Official Date	1-May-2021
Expert Committee	Small Molecules 2

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 2 Expert Committee has revised the Benazepril Hydrochloride and Hydrochlorothiazide Tablets monograph. The purpose of this revision is to add *Dissolution Test 2* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s).

- *Dissolution Test 2* was validated using the Phenomenex Prodigy brand of C18 column. The typical retention times for hydrochlorothiazide and benazepril are about 4 and 10 min, respectively.

Labeling information has been incorporated to support the inclusion of *Dissolution Test 2*.

The Benazepril Hydrochloride and Hydrochlorothiazide Tablets Revision Bulletin supersedes the currently official monograph.
