

Budesonide

Type of Posting	Revision Bulletin
Posting Date	25-Jun-2021
Official Date	1-Jul-2021
Expert Committee	Small Molecules 5

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 5 Expert Committee has revised the Budesonide monograph. The purpose of this revision is to widen the limit of “Budesonide glyoxal (epimers)” in the *Organic Impurities* test from NMT 0.07% to NMT 0.10% to be consistent with the FDA-approved specification. Existing references to reagents have been updated for consistency with the reagent entry.

The Budesonide Revision Bulletin supersedes the currently official monograph.
