| Expert Committee | Small Molecules 4 |

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 4 Expert Committee has revised the Caffeine Citrate Injection monograph. The purpose of this revision is to provide additional flexibility to manufacturers by adding the word “preferably” to the *Packaging and Storage* section that currently prescribes a specific type of glass. Please see the [General Announcement](#) and [Notice of Intent to Revise](#) for more information. Existing references to reagents have been updated for consistency with the reagent entry.

The Caffeine Citrate Injection Revision Bulletin supersedes the currently official monograph.
