

Carbamazepine Extended-Release Tablets

Type of Posting	Revision Bulletin
Posting Date	28-Jun-2024
Official Date	1-Jul-2024
Expert Committee	Small Molecules 4

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 4 Expert Committee has revised the Carbamazepine Extended-Release Tablets monograph. The purpose of this revision is to add *Dissolution Test 10* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s).

- *Dissolution Test 10* was validated using the Symmetry C8 brand of column with L7 packing. The typical retention time for carbamazepine is about 5 min.

The Carbamazepine Extended-Release Tablets Revision Bulletin supersedes the currently official monograph.
