In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 4 Expert Committee has revised the Carbamazepine Extended-Release Tablets monograph. The purpose of this revision is to add *Dissolution Test 9* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s). The revision also necessitates a change in the table numbering in the test for *Organic Impurities*.

The Carbamazepine Extended-Release Tablets Revision Bulletin supersedes the currently official monograph.
