

## Chlorpromazine Hydrochloride Oral Concentrate

<b>Type of Posting</b>	Revision Bulletin
<b>Posting Date</b>	14-Jun-2021
<b>Official Date</b>	15-Jun-2021
<b>Expert Committee</b>	Small Molecules 4

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 4 Expert Committee has revised the Chlorpromazine Hydrochloride Oral Concentrate monograph. The purpose of this revision is to widen the acceptance criteria in the test for *pH* <791> from 2.3–4.1 to 2.3–5.0. Existing references to reagents have also been updated for consistency with the reagent entry.

The Chlorpromazine Hydrochloride Oral Concentrate Revision Bulletin supersedes the currently official monograph.
