

Clonidine Hydrochloride Extended-Release Tablets

Type of Posting	Revision Bulletin
Posting Date	30-Aug-2024
Official Date	1-Sep-2024
Expert Committee	Small Molecules 2

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 2 Expert Committee has revised the Clonidine Hydrochloride Extended-Release Tablets monograph. The purpose of this revision is to add *Dissolution Test 6* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s).

- *Dissolution Test 6* was validated using the XBridge C18 brand of column with L1 packing. The typical retention time for clonidine is about 3.5 min.

The Clonidine Hydrochloride Extended-Release Tablets Revision Bulletin supersedes the currently official monograph.
