

## Dextrose Injection

<b>Type of Posting</b>	Revision Bulletin
<b>Posting Date</b>	19-Nov-2021
<b>Official Date</b>	1-Jun-2022
<b>Expert Committee</b>	Small Molecules 5

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 5 Committee has revised the Dextrose Injection monograph. The purpose of this revision is to change its official date from December 1, 2021 to June 1, 2022.

Comments were received that the new *Sample solution for products that are terminally sterilized* in the Assay may not be suitable for all terminally sterilized products. Therefore, changing the official date to June 1, 2022 will allow the Small Molecules 5 Expert Committee to evaluate the comments and develop a solution to revise the *Sample solution* preparation to address the comments.

The Dextrose Injection Revision Bulletin supersedes the monograph becoming official on December 1, 2021.
