

## Fluoxetine Capsules

<b>Type of Posting</b>	Revision Bulletin
<b>Posting Date</b>	24-Feb-2023
<b>Official Date</b>	1-Mar-2023
<b>Expert Committee</b>	Small Molecules 4

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 4 Expert Committee has revised the Fluoxetine Capsules monograph. The purpose of this revision is to add *Dissolution Test 2* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test. Labeling information has been incorporated to support the inclusion of *Dissolution Test 2*.

- *Dissolution Test 2* was validated using the Zorbax StableBond-CN brand of column with L10 packing. The typical retention time for fluoxetine is about 3 min.

The Fluoxetine Capsules Revision Bulletin supersedes the currently official monograph.
