

## <123> Glucagon Bioidentity Tests

<b>Type of Posting</b>	Revision Bulletin
<b>Posting Date</b>	28-Mar-2025
<b>Official Date</b>	1-Apr-2025
<b>Expert Committee</b>	Biologics Monographs 1 - Peptides & Oligonucleotides

In accordance with the Rules and Procedures of the Council of Experts, the Biologics Monographs 1 - Peptides & Oligonucleotides Expert Committee has revised the chapter <123> Glucagon Bioidentity Tests. The purpose of this revision is to remove the instruction to use 'Dry' USP Dextrose RS for the preparation of the *Reference stock solution* in *Procedure A. Primary Liver Cell Bioidentity Test*, ensuring consistency with the USP Dextrose RS label, which specifies using the USP Dextrose RS on the as-is basis.

The <123> Glucagon Bioidentity Tests Revision Bulletin supersedes the currently official general chapter.
