

Hydroxyzine Hydrochloride Tablets

Type of Posting	Revision Bulletin
Posting Date	29-Mar-2024
Official Date	1-Apr-2024
Expert Committee	Small Molecules 4

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 4 Expert Committee has revised the Hydroxyzine Hydrochloride Tablets monograph. The purpose of this revision is to add *Dissolution Test 3* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing *Dissolution* test(s).

- *Dissolution Test 3* was validated using the Zorbax Eclipse XDB C18 brand of column with L1 packing. The typical retention time for hydroxyzine is about 3 min.

The Hydroxyzine Hydrochloride Tablets Revision Bulletin supersedes the currently official monograph.
