

Hydroxychloroquine Sulfate Tablets

Type of Posting	Revision Bulletin
Posting Date	17-Nov-2023
Official Date	1-Dec-2023
Expert Committee	Small Molecules 1

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 1 Expert Committee has revised the Hydroxychloroquine Sulfate Tablets monograph. The purpose of this revision is to add *Dissolution Test 3* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s). Existing references to reagents have been updated for consistency with the reagent entry. In addition, an option for deaeration of media in *Dissolution Test 1* was added to accommodate FDA-approved drug products utilizing this dissolution test. The format of this test was updated to current *USP* technical style, including the addition of the necessary equations.

The Hydroxychloroquine Sulfate Tablets Revision Bulletin supersedes the currently official monograph.
