

Isosorbide Mononitrate Extended-Release Tablets

Type of Posting	Revision Bulletin
Posting Date	26-Apr-2024
Official Date	1-May-2024
Expert Committee	Small Molecules 2

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 2 Expert Committee has revised the Isosorbide Mononitrate Extended-Release Tablets monograph. The purpose of this revision is to revise the existing *Dissolution Test 5* to accommodate FDA-approved drug products of different strengths, including half-tablets, which are not covered by the existing *Dissolution Test 5*, and to update the preparation of the *System suitability solution* and the *Standard solution* accordingly. Additionally, minor editorial changes have been made to update the monograph to current *USP* style.

The Isosorbide Mononitrate Extended-Release Tablets Revision Bulletin supersedes the currently official monograph.
