<b>Expert Committee</b>	Small Molecules 2

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 2 Expert Committee has revised the Methylene Blue monograph. The purpose of this revision is to widen the acceptance criteria in the test for *Loss on Drying* from 8.0%–22.0% to 8.0%–24.0% to accommodate FDA-approved drug products with different limits.

The Methylene Blue Revision Bulletin supersedes the currently official monograph.
