Based on the supporting data received from a manufacturer awaiting FDA approval, the Expert Committee proposes to revise the Metformin Hydrochloride Extended-Release Tablets monograph to add *Dissolution Test 20*.

The proposed revision is contingent on FDA approval of a product that meets the proposed monograph specifications. USP provides this text to indicate changes that we anticipate will be made official once the product subject to this proposed revision under the Pending Monograph Program receives FDA approval. Once FDA approval is granted for the associated revision request, a Revision Bulletin will be posted that will include the changes indicated herein, as well as any changes indicated in the product’s final approval, combined with the text of the monograph as effective on the date of approval. Any revisions made to a monograph under the Pending Monograph Program that are posted without prior publication for comment in the *Pharmacopeial Forum* must also meet the requirements outlined in the [USP Guideline on Use of Accelerated Processes for Revisions to the USP–NF](#).
