Midodrine Hydrochloride Tablets

Type of Posting: Revision Bulletin
Posting Date: 2-Nov-2023
Official Date: 1-Dec-2023
Expert Committee: Small Molecules 2

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 2 Expert Committee has revised the Midodrine Hydrochloride Tablets monograph. The purpose of this revision is to add Dissolution Test 2 to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s). Labeling information has been incorporated to support the inclusion of Dissolution Test 2.

- **Dissolution Test 2** was validated using the Inertsil ODS 3V brand of column with L1 packing. The typical retention time for midodrine is about 4.8 min.

The Midodrine Hydrochloride Tablets Revision Bulletin supersedes the currently official monograph.
