

Minocycline Hydrochloride Extended-Release Tablets

Type of Posting	Revision Bulletin
Posting Date	25-Aug-2023
Official Date	1-Sep-2023
Expert Committee	Small Molecules 1

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 1 Expert Committee has revised the Minocycline Hydrochloride Extended-Release Tablets monograph. The purpose of this revision is to revise *Dissolution Test 7* to accommodate FDA-approved drug products of different strengths that are not included in the existing *Dissolution Test 7*. The cross reference to *Dissolution Test 2's Instrumental conditions* and *Analysis* has been replaced with details based on submission. Existing references to reagents also have been updated for consistency with the reagent entry names.

The Minocycline Hydrochloride Extended-Release Tablets Revision Bulletin supersedes the currently official monograph.
