

Nandrolone Decanoate

Type of Posting	Revision Bulletin
Posting Date	28-Jan-2022
Official Date	1-Feb-2022
Expert Committee	Small Molecules 5

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 5 Expert Committee has revised the Nandrolone Decanoate monograph. The purpose of this revision is to widen the acceptance criteria in the test for *Melting Range or Temperature* from 33°–37° to 33°–38° to accommodate FDA-approved drug products with different limits. The *USP Reference Standards* section has also been revised to add chemical information for USP Nandrolone RS.

Additionally, minor editorial changes have been made to update the monograph to current *USP* style.

The Nandrolone Decanoate Revision Bulletin supersedes the currently official monograph.
