

Nicardipine Hydrochloride Injection

Type of Posting	Revision Bulletin
Posting Date	25-Mar-2022
Official Date	1-Apr-2022
Expert Committee	Small Molecules 2

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 2 Expert Committee has revised the Nicardipine Hydrochloride Injection monograph. The purpose of this revision is to widen the *Nicardipine pyridine analog* impurity limit from NMT 0.9% to NMT 2.5% in the *Organic Impurities* test to accommodate FDA-approved drug products with different limits.

The Nicardipine Hydrochloride Injection Revision Bulletin supersedes the currently official monograph.
