Expert Committee	Chemical Medicines Monographs 2
Reason for Revision	Compliance

In accordance with the Rules and Procedures of the 2015–2020 Council of Experts, the Chemical Medicines Expert Committee 2 has revised the Propafenone Hydrochloride Extended-Release Capsules monograph. The purpose for the revision is to add *Dissolution Test 4* to accommodate FDA-approved drug products with different conditions and/or tolerances than the existing dissolution tests.

The revision also necessitates a change in the table numbering in the tests for *Organic Impurities* and *Content of Propafenone Related Compound A*.

The Propafenone Hydrochloride Extended-Release Capsules Revision Bulletin supersedes the currently official monograph.

Should you have any questions, please contact Donald Min, Senior Scientific Liaison (301-230-7457 or ddm@usp.org).
