In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 2 Expert Committee has revised the Propranolol Hydrochloride Extended-Release Capsules monograph. The purpose of this revision is to add *Dissolution Test 7* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s). Existing references to reagents and reagent names have been updated for consistency with official reagent entry names. The revision also necessitates a change in the table numbering.

The Propranolol Hydrochloride Extended-Release Capsules Revision Bulletin supersedes the currently official monograph.
