

Rifampin Capsules

Type of Posting	Revision Bulletin
Posting Date	28-Feb-2025
Official Date	1-Mar-2025
Expert Committee	Small Molecules 1

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 1 Expert Committee has revised the Rifampin Capsules monograph. The purpose of this revision is to delete “calculated on the dried basis” from the definition of C_S in the *Assay* and the test for *Uniformity of Dosage Units*, and from the *Standard solution* in the *Dissolution* test, as the assigned value of USP Rifampin RS on the certificate/label already includes a correction for the moisture content. Updates were made to the *Uniformity of Dosage Units* test to include *System suitability stock solution* and *Standard stock solution* references to the *Assay* for preparations. Chemical information was added to USP Rifampin Quinone RS in the *USP Reference Standards* section.

Additionally, minor editorial changes have been made to update the monograph to current *USP* style.

The Rifampin Capsules Revision Bulletin supersedes the currently official monograph.
