

Sodium Bicarbonate

Type of Posting	Revision Bulletin
Posting Date	26-May-2023
Official Date	1-Jun-2023
Expert Committee	Small Molecules 3

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 3 Expert Committee has revised the Sodium Bicarbonate monograph. The purpose of this revision is to widen the system suitability requirements in the *Limit of Ammonia* test.

The system suitability requirements will be changed as follows:

- Change the *Resolution* between sodium and ammonium ions from “NLT 4.0” to “NLT 3.0”.
- Revise the *Tailing factor* for ammonium ion from “NMT 1.5” to “0.8–1.8”.
- Update the *Signal-to-noise ratio* for ammonium ion from “NLT 20” to “NLT 10”.

The Sodium Bicarbonate Revision Bulletin supersedes the currently official monograph.
