

## Trenbolone Acetate

<b>Type of Posting</b>	Revision Bulletin
<b>Posting Date</b>	30-Jun-2023
<b>Official Date</b>	1-Aug-2023
<b>Expert Committee</b>	Small Molecules 3

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 3 Expert Committee has revised the Trenbolone Acetate monograph. The purpose of this revision is to widen the *Acceptance criteria* of Trenbolone acetate related compound A (11,12-dihydrotrenbolone acetate) in the test for *Organic Impurities* from NMT 0.5% to NMT 1.0% to accommodate FDA-approved drug products with different limits.

The Trenbolone Acetate Revision Bulletin supersedes the currently official monograph.
