

## Trospium Chloride Tablets

<b>Type of Posting</b>	Revision Bulletin
<b>Posting Date</b>	27-Dec-2024
<b>Official Date</b>	1-Jan-2025
<b>Expert Committee</b>	Small Molecules 3

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 3 Expert Committee has revised the Trospium Chloride Tablets monograph. The purpose of this revision is to add *Dissolution Test 3* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s). Additionally, minor editorial changes have been made to update the monograph to current *USP* style. Existing references to reagents have been updated for consistency with the reagent entry.

- *Dissolution Test 3* was validated using the Kromasil 100 C18 brand of column with L1 packing. The typical retention time for trospium is about 5 min.

The Trospium Chloride Tablets Revision Bulletin supersedes the currently official monograph.
