In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 4 Expert Committee has revised the Venlafaxine Hydrochloride Extended-Release Capsules monograph. The purpose of this revision is to add *Dissolution Test 12* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s).

- *Dissolution Test 12* was validated using the Zorbax SB-C18 brand of column with L1 packing. The typical retention time for venlafaxine is about 7 min.

The Venlafaxine Hydrochloride Extended-Release Capsules Revision Bulletin supersedes the currently official monograph.
