

## Vigabatrin Tablets

<b>Type of Posting</b>	Revision Bulletin
<b>Posting Date</b>	31-Mar-2023
<b>Official Date</b>	1-Apr-2023
<b>Expert Committee</b>	Small Molecules 4

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 4 Expert Committee has revised the Vigabatrin Tablets monograph. The purpose of this revision is to add *Dissolution Test 2* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test. *Labeling* information has been incorporated to support the inclusion of *Dissolution Test 2*. Existing references to reagents have been updated for consistency with the reagent entry.

- *Dissolution Test 2* was validated using the Partisil 10 SCX brand of column with L9 packing. The typical retention time for vigabatrin is about 5 min.

The Vigabatrin Tablets Revision Bulletin supersedes the currently official monograph.
