
[Monographs Affected by Revision to <191> Identification Tests–General](#)

Type of Posting: Notice of Intent to Revise

Posting Date: 27-Oct-2017

Targeted Official Date: 1-May-2018

Expert Committee: Various

In accordance with section 7.05(c) of the 2010–2015 Rules and Procedures of the Council of Experts, this is to provide notice that USP and its Expert Committees, as applicable, intend to revise multiple monographs in response to the revision of General Chapter <191> Identification Tests–General.

General Chapter <191> was proposed for comment in Pharmacopeial Forum 41(2) and will appear in *USP 41–NF 36*. The specific change in monographs covered by this Notice is the incorporation of letters (e.g., A, B, C) in the Chemical Identification Tests section of General Chapter <191> for clarity and ease of navigation to individual chemical tests. USP has identified numerous monographs that reference General Chapter <191> and thus require revision to modify these references. These references will be updated when the monographs appear in *USP 41–NF 36*. A list of the monographs that will be modified can be found [here](#).

All modifications will become official on May 1, 2018 to coincide with the official date of revised General Chapter <191>.

Please also see the Compendial Notice: [New Revision Markup for Reference Changes in USP–NF](#) for details on the revision markup used to identify the reference updates.

Interested stakeholders are encouraged to alert USP staff to any other effects they may recognize related to the revision of General Chapter <191>.

Should you have any questions or comments, please contact Antonio Hernandez-Cardoso, Senior Scientific Liaison [(301) 816-3808 or ahc@usp.org].
