## General Chapter <210> Monosaccharide Analysis

**Type of Posting:** Notice of Intent to Revise

**Posting Date:** 22–Nov–2019

**Targeted Official Date:** 01–Aug–2021, *USP–NF* 2021, Second Issue

**Expert Committee:** General Chapters-Biological Analysis (GCBA)

In accordance with section 7.04(c) of the 2015–2020 Rules and Procedures of the Council of Experts, this is to provide notice that the General Chapters-Biological Analysis Expert Committee intends to revise General Chapter <210> *Monosaccharide Analysis*.

The General Chapters-Biological Analysis Expert Committee plans to remove USP KDN Reference Standard (RS) from General Chapter <210> *Monosaccharide Analysis* because it is an optional internal standard. Removal of the requirement to use the USP KDN RS will provide flexibility to the user in selecting a KDN reagent.

In addition, USP plans to discontinue the reference standard, USP KDN RS, associated with the chapter. It is anticipated that the proposed revision will be published in *Pharmacopeial Forum* (PF) 46(1) [Jan.–Feb. 2020].
