Expert Committee	General Chapters - Chemical Analysis

In accordance with the Rules and Procedures of the Council of Experts, the General Chapters - Chemical Analysis Expert Committee has revised General Chapter <621> *Chromatography*. The purpose for the revision is to further delay the implementation of the subsections *Peak symmetry* and *System sensitivity* under *System suitability* until May 1, 2025, to coincide with the target official date of the revision proposal to appear in PF 49(6) [Nov-Dec 2023]. For additional details, please see the [Notice of Intent to Revise](#) describing next steps and timelines for <621>Chromatography revisions.

The <621> Chromatography Revision Bulletin supersedes the currently approved harmonized chapter to become official on April 1, 2023.

Should you have any questions, please contact Horacio Pappa, Senior Director, hp@usp.org.

*This Notice was updated on November 2, 2023 to correct a typographical error in the subsection names and again on November 17, 2023 to provide an updated Notice of Intent to Revise link.
